

**University of Technology**

**Department of Chemical Engineering**

---

## Graduation Project Proposal Format

---

**Advisor: Dr. Saad Raheem**

**Co-Advisor:**

**Branch: Chemical Process Engineering**

**Academic Year: 2014-2015**

**Groups No. : 16**

**Students Name: Laith Saleh & Muntadhar Abed Alkareem**

منتظر عبد الكريم ، لايت صالح

**Project Title: Ethyl Acrylate Production**

**Specific objective:**

**Introduction to Ethyl Acrylate material that include the history of material, the physical and chemical properties, the production methods and uses. After that, select the prefer production method to do the material and energy balance for the process flow diagram with design.**

Dr. Saad Raheem
