

ملحق رقم (5)التخصصات الحديثة في مجال الهندسة الكيميائية

1	Neuro- Fuzzy Control of Chemical System
2	Nanotechnology Applications in Chemical Engineering
3	Membrane Separation Processes.
4	Advanced Wastewater Treatment.
5	New Developments in Petrochemical Industries.
6	Catalytic Engineering (Synthesis and Kinetics).
7	New Developments in Petroleum Refining.
8	Environmental Technology.
9	Hydrodynamics, Heat, Mass and Reaction in Multiphase Systems.
10	(Vapor-Liquid Equilibrium) in Multicomponent Systems.
11	Energy Conservation in Chemical Engineering Processes.
12	Renewable Energy Developments.
13	Biochemical Engineering.
